

Efficient Farm Application Weighing

**Cardinal Scale's
New AG Load Cells and
212 Series Weight Indicator**

Cardinal's AG Load Cell paired with the Cardinal 212 STORM Series Indicator is an ideal combination for use in both mobile and fixed weighing applications on the farm. The AG Load Cells may be placed between the truck or trailer frame and the box to form a heavy-duty mobile scale, or place the load cells on a frame and use them to support pallets or platforms for other farm weighing requirements. Either way, you'll get the most for your weighing dollar!

APPLICATIONS:

- Seed Carts
- Feed Mixers (truck and trailer)
- Fertilizer Spreaders (truck and trailer)
- Pallet Scales
- Platform Scales
- Pallet Scales

Each kit comes complete with 4 load cells, mounting pads, and 30 feet of load cell cable with connector.
