

CS Series Digital Counting Scales

Take the guess work out of counting with Cardinal's CS series counting scales. Designed for portable use with a built-in rechargeable battery pack, the CS series is ideal for inventory when mobility is a must. This scale is ideal for multiple operators with the easy to use keypad.

- Rechargeable battery pack with up to 200 hours of continuous use
- Sleep mode for extended battery life
- Easy-to-read, backlit LCD display
- Memory key to accumulate total piece count and weight
- Preset feature for setting weight and quantity limits

SIMPLE AND ECONOMICAL Yet Tough and Portable

The **built-in rechargeable battery pack** with up to 200 hours of continuous use not only monitors the battery life, but also recharges the battery while the scale is in operation insuring no unexpected "down time."

The **liquid crystal display is backlit** to provide easy viewing of weight, average piece weight, and count. The **color-coded keypad** insures simple and accurate operation.

Preset count and weight limits can be set to alert the operator that a quantity or desired weight has been achieved. This is an excellent feature for packaging of parts and products.

With **15,000 weight divisions**, the CS series is capable of counting the smallest of parts. Available in weight capacities of 6 lbs, 15 lbs, 30 lbs, or 65 lbs, you can choose the counting scale best suited for your application.

The CS series includes **memory accumulators** to keep total piece count and weight from the last time the

memory was cleared. This feature is great for keeping a running total on specific parts and products.

The CS scale packaging can be re-used when storing or transferring the scale. A **vinyl dust and debris cover** protects the CS counting scale from all of the dirt that can accumulate over long term use.

SPECIFICATIONS

Capacity:	
CS-6:	6 lb x .0005 lb (3 kg x 0.2 g)
CS-15:	15 lb x .001 lb (7.5 kg x 0.5 g)
CS-30:	30 lb x .002 lb (15 kg x 1 g)
CS-65:	65 lb x .005 lb (30 kg x 2 g)
Display:	0.75" high LCD with backlight
Weight:	5 digits
Piece Weight:	5 digits
Count:	6 digits
Internal Resolution:	1 part in 300,000
Dimensions:	11.75" W x 12.63" D x 4.25" H (30 cm W x 32 cm D x 11 cm H)
Platform Size:	11.38" W x 8.25" D (29 cm x 21 cm)
Zero:	Established on power up and maintained by auto-zero circuitry
Power:	Rechargeable battery pack or 115 VAC 50/60Hz or 230 VAC 50/60Hz
Tare:	100% of full scale capacity
Operating Temp.:	32° - 104° F (0° - 40° C)
Ship Weight:	13 lb (6 kg)
